

## JOB SPEC: EPICOR TECHNICAL CONSULTANT, UK

We are currently recruiting for an Epicor Technical Consultant to join the [Aspera Solutions](#) team.

### Why Should you Think about Joining Aspera?

Aspera Solutions is a successful, award winning ERP Consultancy serving mid-tier manufacturing and distribution companies in EMEA (predominantly, UK&I). Founded in 1987, we are growing year on year and pride ourselves on innovation, knowledge leadership and valued delivery of Epicor's flagship ERP system, [Epicor](#) ERP V10.2.

In working with Aspera Solutions, you will have the opportunity to work alongside and learn from a team of innovative & value driven, ERP knowledge leaders.

### Your Role and Responsibilities

As a Technical Consultant at Aspera, you will need to have a third level qualification in one or more of the following areas: Computer Science, IT and / or Engineering and at least 4 years relevant experience.

**Specifically, you will be expected to demonstrate competence in the following areas:**

- Epicor ERP experience, specifically with Manufacturing & Distribution modules
- SSRS experience with Epicor
- BPMs, Epicor BAQs, dashboards and DMT
- Epicor system administration
- Installations and upgrades of Epicor environments and SQL Server databases
- Microsoft Visual Studio (C#, LINQ, ASP.NET and Infragistics) for database development
- Experience calling Epicor Business Objects to perform tasks
- Experience with SQL based solutions (Stored Procedures, Triggers, etc.)

- Integration experience using Web Services/XML
- Experience conducting technical training classes
- Ability to write technical designs for ERP solutions
- Strong testing and documentation skills
- Experience estimating tasks accurately
- Strong verbal & written communication skills
- Excellent code management skills
- Motivated approach toward on-going education and self-development
- Ability to collaborate with co-workers and facilitate knowledge sharing
- Ability to manage own time & priorities via timely communication with management and clients

#### Experience with the following extremely advantageous:

- Epicor SDK experience
- Electronic Data Interchange
- SQL Server database administration
- SQL Server Integration Services (SSIS)
- Developing SQL Analysis Services Data Warehouses
- Experience with SEPA/BACS EFT banking files
- Epicor Service Connect
- RESTful webservice
- PowerBI or other Business Intelligence tools

#### Location:

Aspera employees work on site with customers across the UK and Ireland. Ability to travel to customer sites with overnight stays is mandatory. Overseas travel is also

sometimes required however it is expected that this role is UK based. Home working is also available when the tasks permit.
